ABSTRACT

This collection of graphs displays 6-year cohort dropout rates in the Chicago Public Schools by student racial/ethnic background (African American, Latino, white, and Asian American) and gender. Each cohort is followed for 6 years, from age 13 to age 19 years. The graphs use the methodology described in the full technical report to calculate dropout rates. (SM)

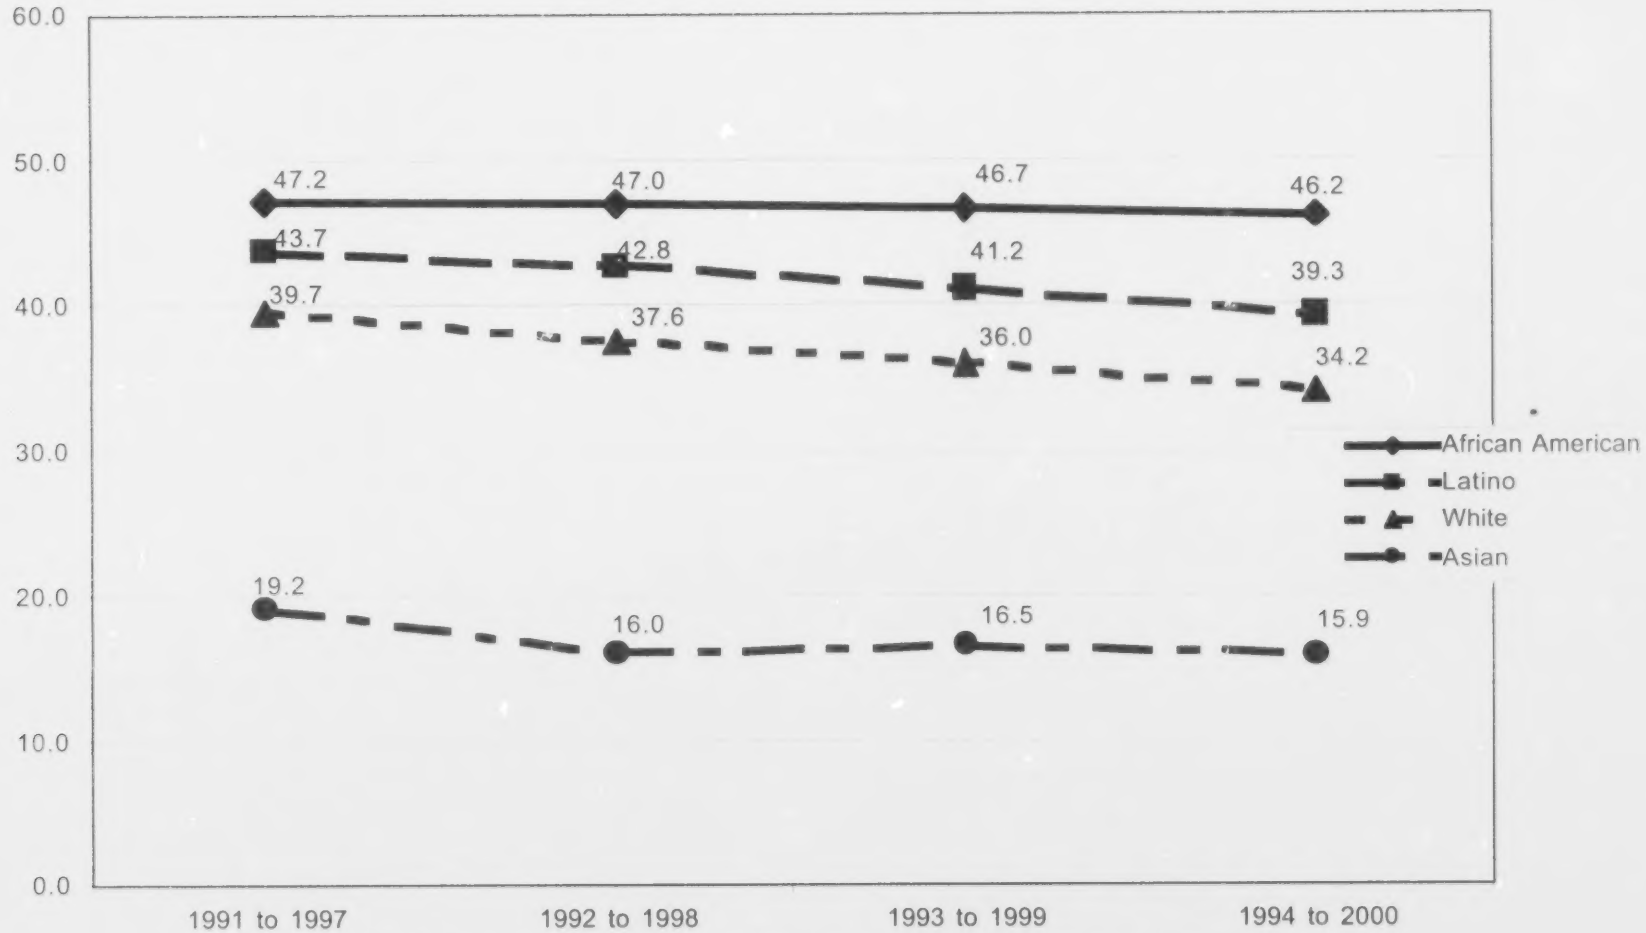
The attached graphs display six-year cohort dropout rates in the Chicago Public Schools by the racial/ethnic background and gender of students. The graphs use the methodology described in the technical report cited above to calculate dropout rates. The rates are parallel to what is reported in Table 1 on page 3 for 19 year olds.

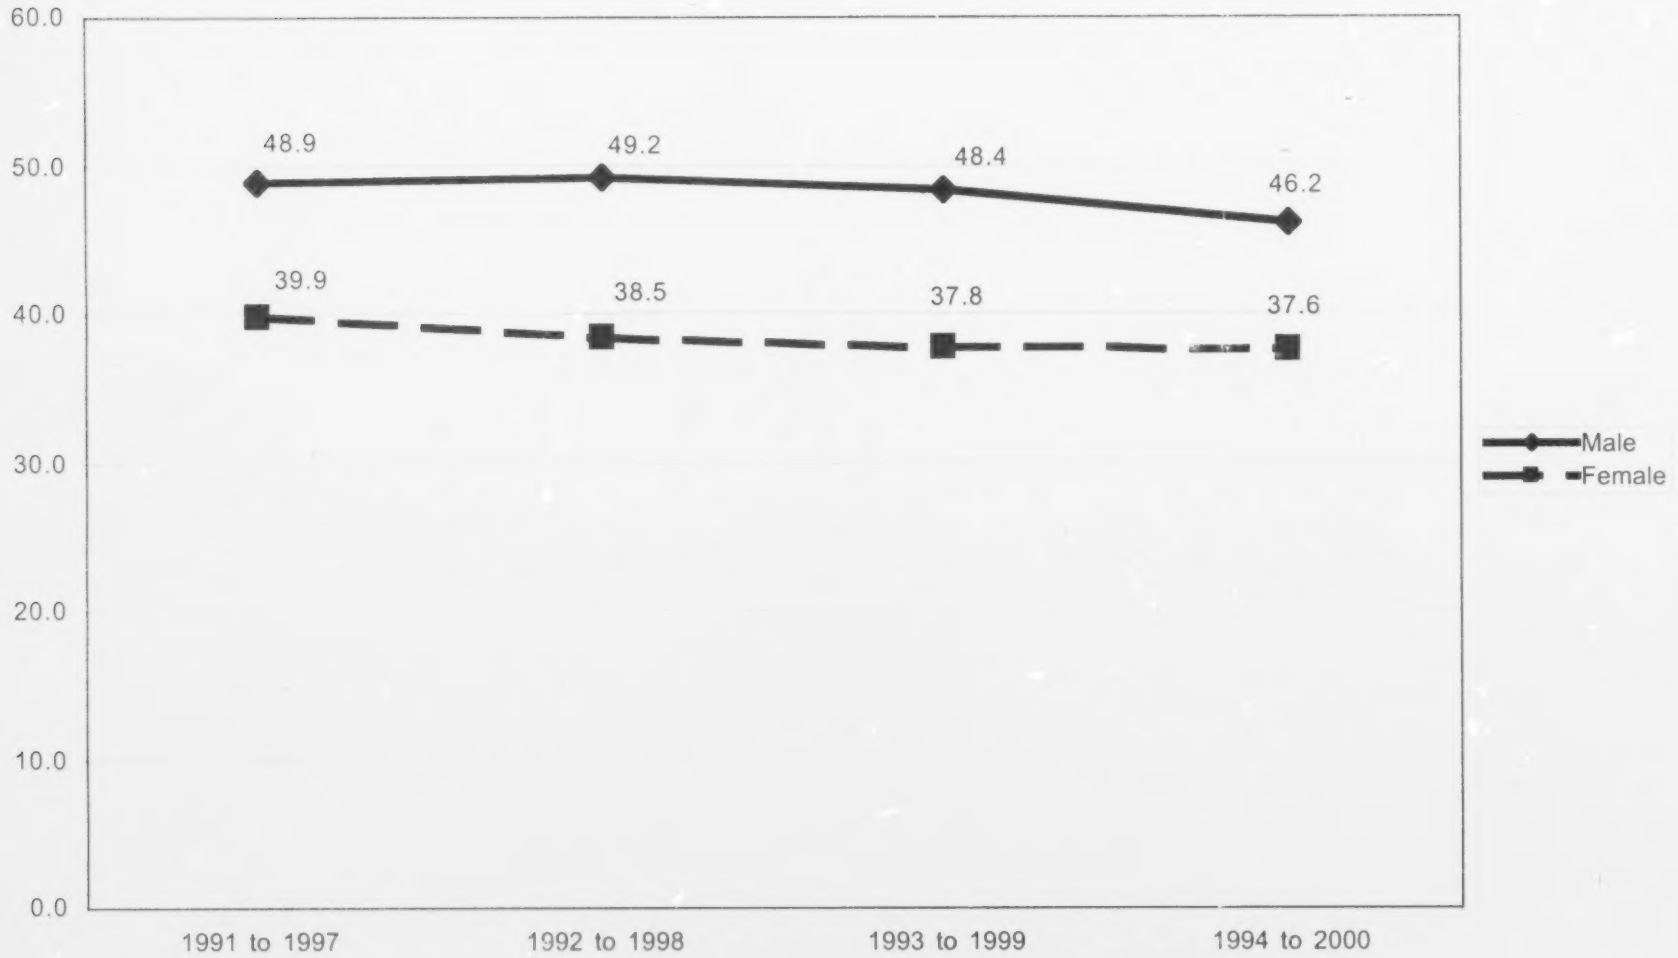
BEST COPY AVAILABLE

CPS Cohort Dropout Rate by Race



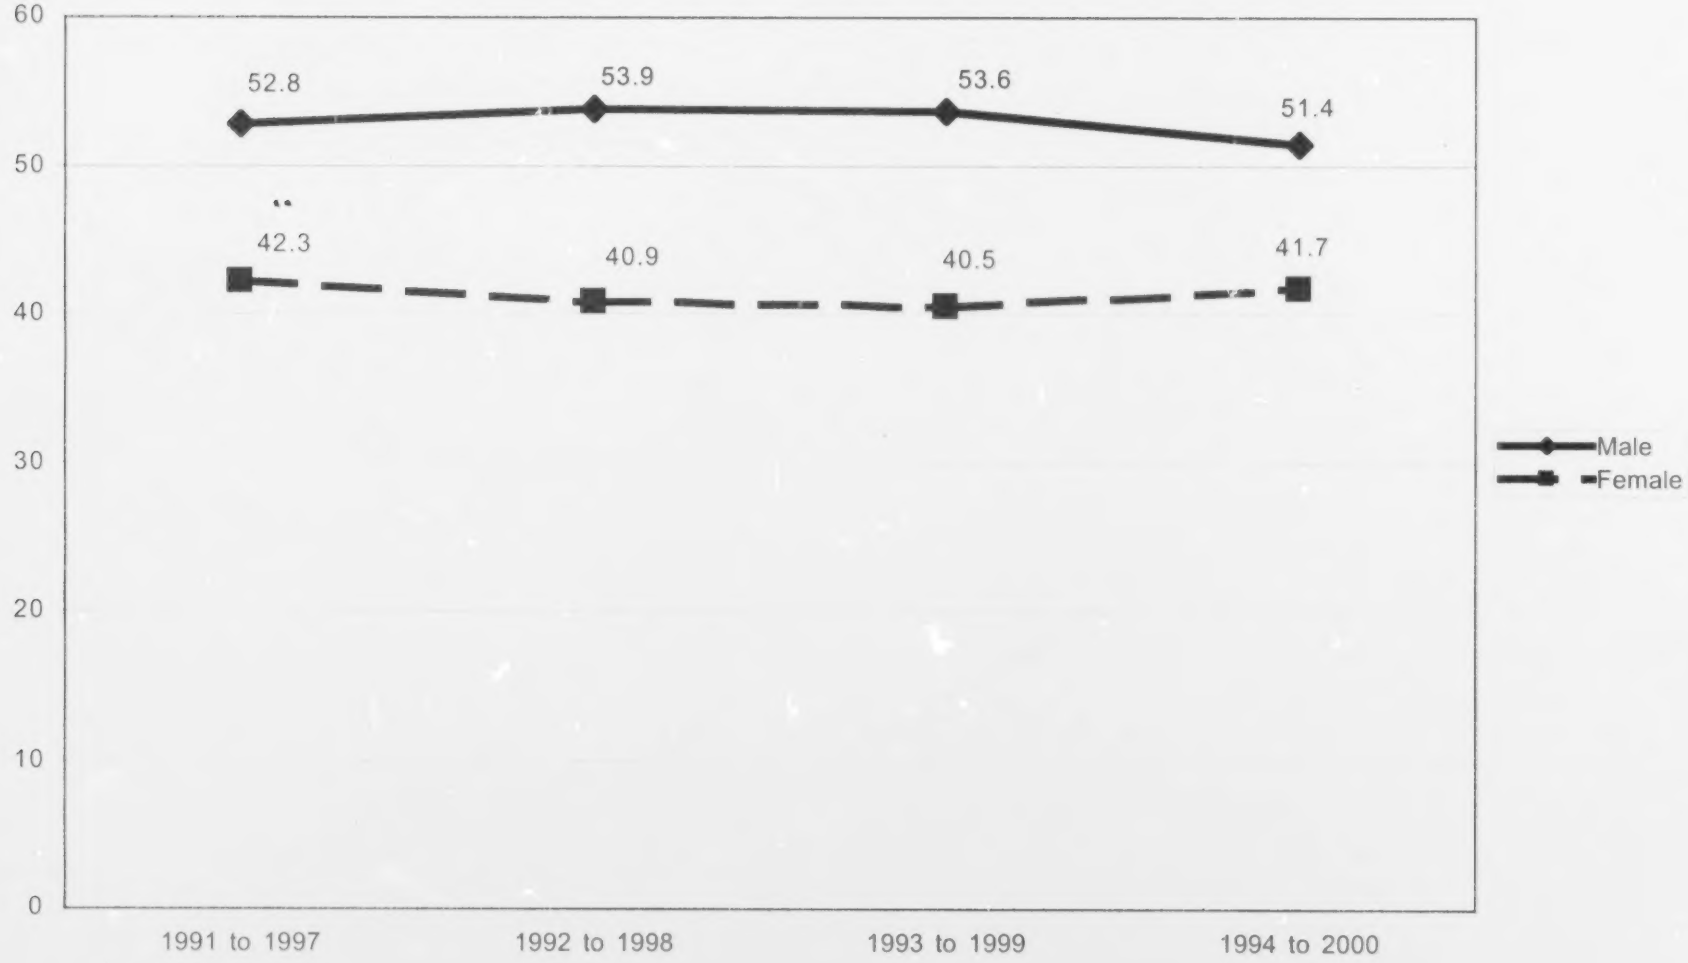
Each Cohort is followed for 6 years from age 13 to age 19. See recent Consortium publication for details.

CPS Cohort Dropout Rate by Gender



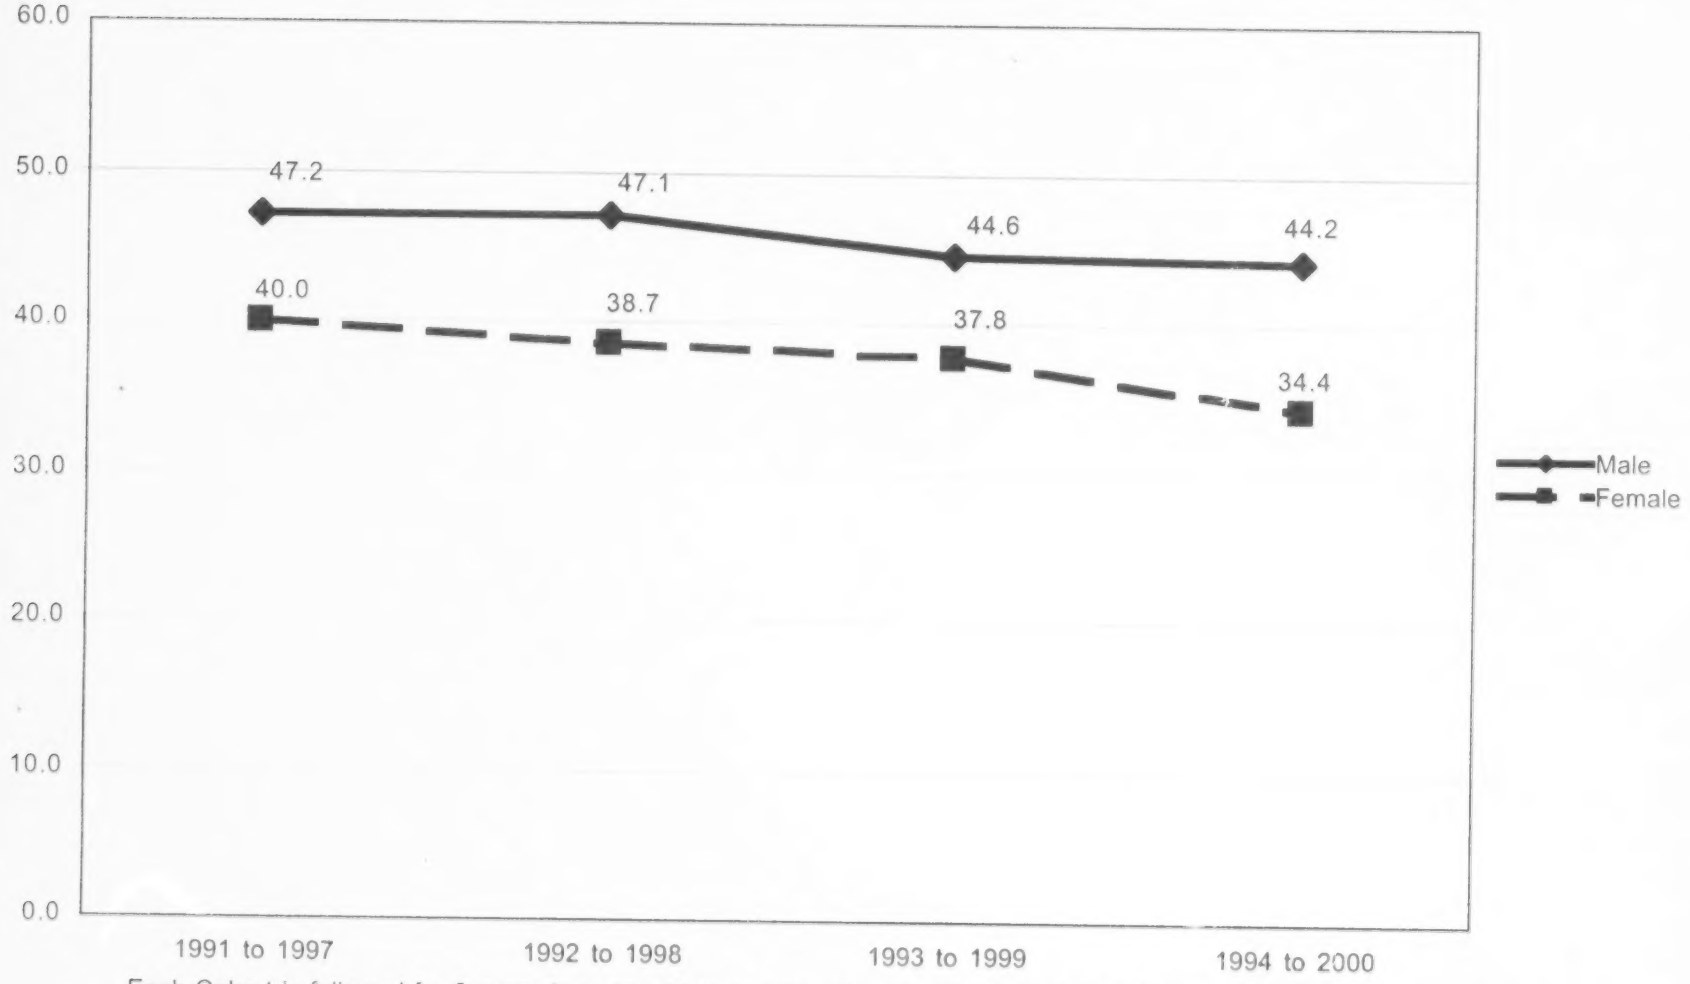
Each Cohort is followed for 6 years from age 13 to age 19. See recent Consortium publication for details.

African American Cohort Dropout Rate by Gender



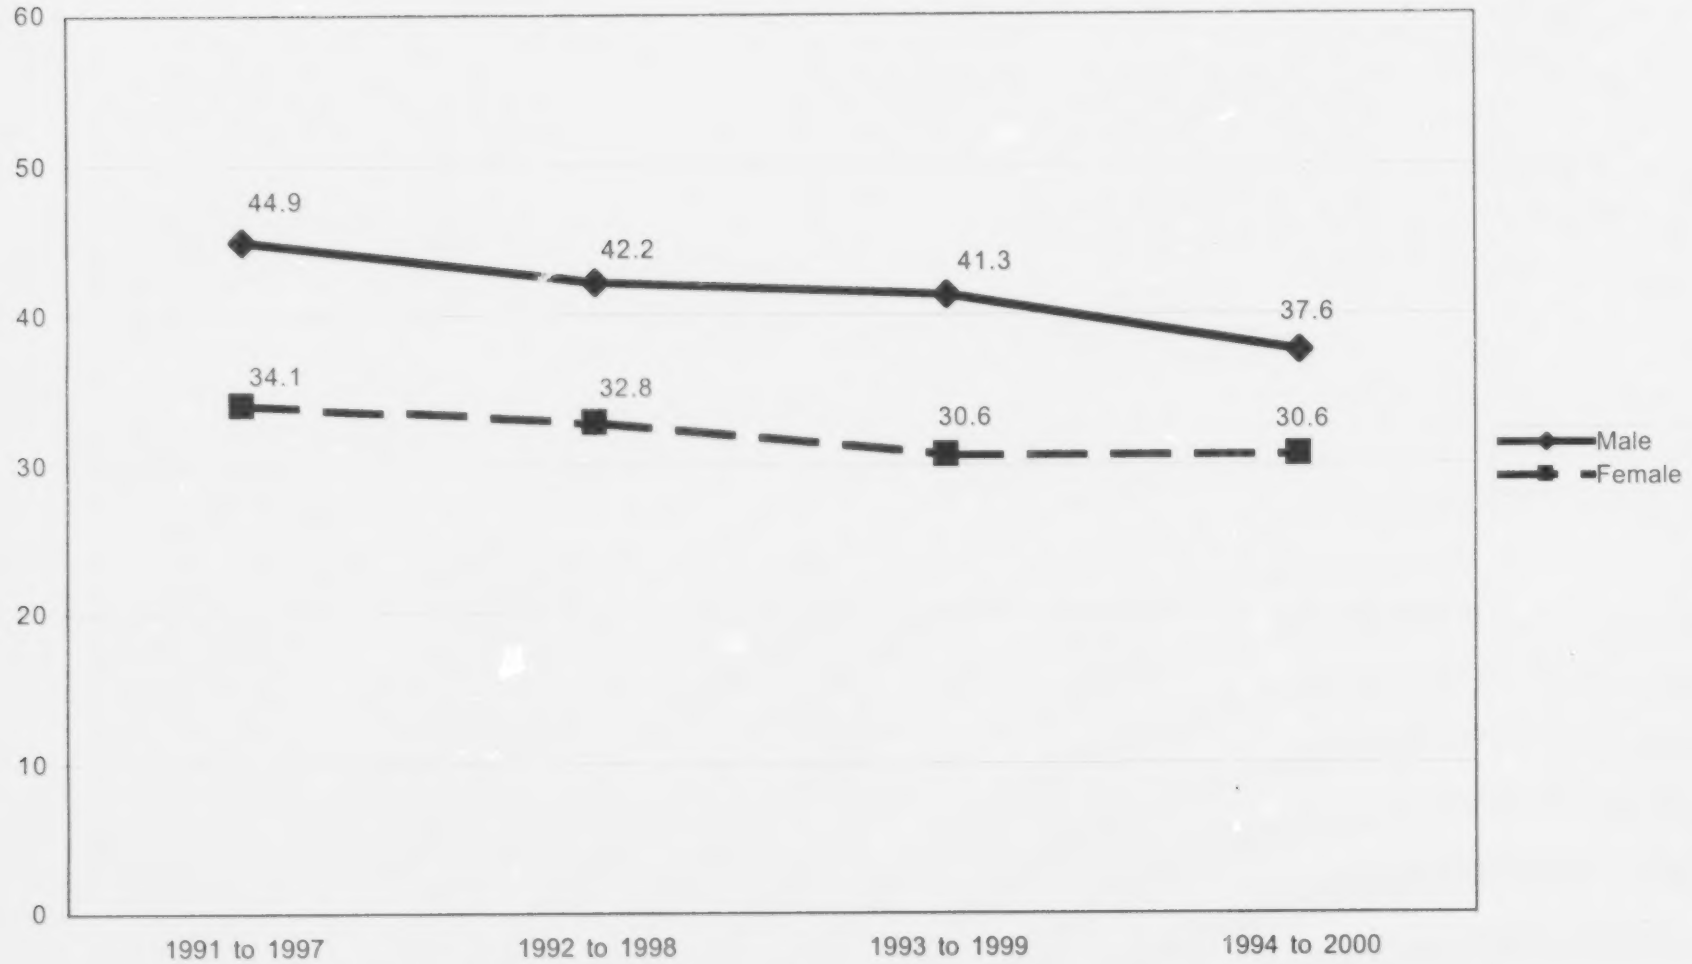
Each Cohort is followed for 6 years from age 13 to age 19. See recent Consortium publication for details.

Latino Cohort Dropout Rate by Gender



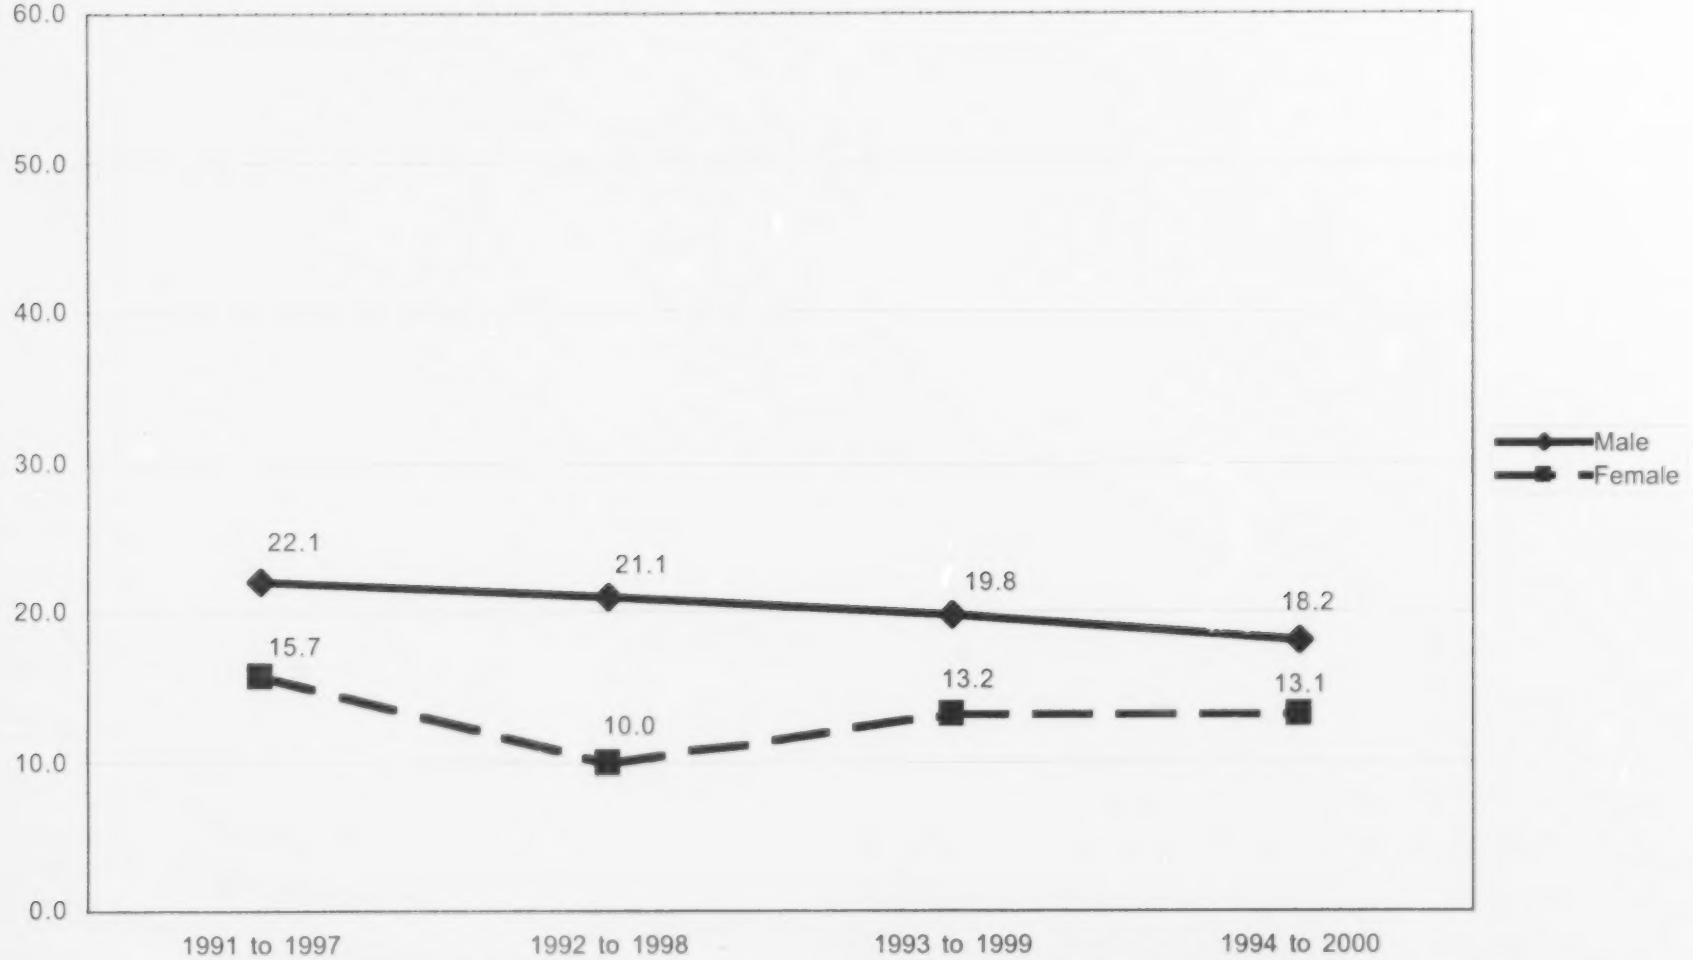
Each Cohort is followed for 6 years from age 13 to age 19. See recent Consortium publication for details.

White Cohort Dropout Rate by Gender



Each Cohort is followed for 6 years from age 13 to age 19. See recent Consortium publication for details.

Asian Cohort Dropout Rate by Gender



Each Cohort is followed for 6 years from age 13 to age 19. See recent Consortium publication for details.
